

We push machining to the limit

## hyperMILL® Integrates MachiningCloud Data for Enhanced Manufacturing Efficiency

**CAMARILLO, CA – July 31, 2025** – OPEN MIND Technologies AG, the developer of the leading CAD/CAM software *hyperMILL*®, and MachiningCloud, the leading provider of cutting tool data, today announced a significant integration that allows *hyperMILL*® users to access and utilize comprehensive tooling data directly from the MachiningCloud platform.

This integration streamlines the tool selection and programming process within *hyperMILL*®; by accessing detailed tool specifications, recommended cutting parameters, and 3D models, *hyperMILL*® users can significantly reduce programming time, minimize errors, and optimize machining strategies for greater efficiency and higher quality parts.

MachiningCloud offers a vast and growing library of cutting tool data from the world's leading manufacturers. Alan Levine, Managing Director OPEN MIND Technologies USA shared his thoughts to this partnership: “We are happy to announce this collaboration as this integration ensures that *hyperMILL*® users have access to the latest tool catalogs and application data, facilitating the selection of the most appropriate tools for their specific machining tasks.”

"Our mission at MachiningCloud is to empower manufacturers with the digital tools they need to thrive," stated Matthew Nicholson, director of Sales and Marketing at MachiningCloud. "This collaboration with OPEN MIND and the integration with *hyperMILL*® provides a direct and seamless connection to our extensive tooling knowledge base, enabling *hyperMILL*® users to leverage the power of digital tooling data for optimized programming and machining."

Both companies expressed their strong commitment to this partnership and their shared vision of continuously strengthening the integration to provide even greater value to their mutual customers in the future.

We push machining to the limit

### ***About MachiningCloud***

MachiningCloud is the premier data-driven resource revolutionizing the way manufacturers find, select, and utilize cutting tools, workholding, and machines. More than just a parts catalog, the platform provides a comprehensive and connected digital ecosystem including rich and standardized product data, Intelligent tool selection, comprehensive feeds and speeds, and much more.

By bridging the gap between physical tools and the digital world, MachiningCloud helps manufacturers achieve greater efficiency, reduce costs, and improve overall productivity. It's the essential platform for anyone looking to make smarter, data-driven decisions in their machining operations.

### ***About OPEN MIND Technologies AG***

OPEN MIND Technologies AG is one of the world's leading developers of powerful CAD/CAM solutions for machine and controller-independent programming.

OPEN MIND develops optimized CAD/CAM solutions that include innovative and unique features that can deliver significantly higher performance in both programming and machining. *hyperMILL*<sup>®</sup> is a completely modular CAD/CAM solution that provides state-of-the-art CAM technologies on its own CAD platform: from 2.5D, 3D and 5-axis machining as well as turning strategies and solutions for additive manufacturing, HSC and HPC machining. Whether automation, simulation or virtual machine – trendsetting technologies expand the product range and enable continuous digital process chains. Special applications, seamless interaction with all popular CAD solutions and exceptional customer service rounds out the company's products and capabilities.

According to the "NC Market Analysis Report 2024" compiled by CIMdata, *hyperMILL*<sup>®</sup> is a leading, worldwide CAD/CAM solution. Innovative CAD/CAM technologies fulfill the highest demands in the aerospace, automotive, tool and mold manufacturing, production machining, medical, job shops, energy and semiconductor industries.

OPEN MIND's majority stake in manufacturing execution system (MES) developer Hummingbird expands the CAD/CAM manufacturer's product portfolio and enhances the range of connected digitalized manufacturing technologies.

OPEN MIND is a Mensch und Maschine company and has subsidiaries and qualified sales partners on all continents.
