

MachiningCloud

Smart Manufacturing

An Industry 4.0 Solution

Helping you make **better** tooling decisions

**Reduce the time it takes to
find, select, and assemble
tools by 75% or more**

Source the tools and information
you need in a fraction of the time

Up-to-date and complete product
data – including availability

Build assemblies in a matter of
minutes

Download manufacturers' product
data for your CAD/CAM, Simulation
and Tool Management software

Anytime/Anywhere access from your
desktop or tablet

Direct Access to Rich Product Data for Today's Digital Shop

Who We Are

The MachiningCloud app is an Industry 4.0 solution delivering up-to-date cutting tool manufacturers' product knowledge and data, fast-tracking cutting tool selection, CNC programming, simulation and shop floor operations.

Providing data from world leading suppliers eliminates the hassles of searching through printed catalogs, telephone calls, and multiple websites to find optimal tooling, while removing the task of manually typing tooling data into CAD/CAM software.

What We Can Do

- **Find** the right cutting tool quickly
- **Reduce** time to assemble the optimum combination of tool components
- **Access** manufacturers' expert advice
- **Know** immediately stock availability locally & globally
- **Obtain** feed & speed recommendations for your workpiece and assemblies
- **Export** and download ISO Plus tooling data for CAD/CAM, simulation and tool management systems
- **Generate** 3D models and 2D drawings
- **Share** jobs, tools and machines with your team

About the App

- Available on desktop, iPad, and Android tablets
- Cloud-enabled, product data is always up-to-date
- Standard, utilizing ISO13399, STEP, GTC, DIN4000 and MTConnect
- Open to any cutting tool manufacturer or software vendor to include their product data for consumers
