

v2.4 Release Now Available

The latest release of the MachiningCloud App is now available from www.machiningcloud.com/get-started.

What's New in v2.4?

Allen Benjamin, IMCO, and WNT are now available on MachiningCloud!

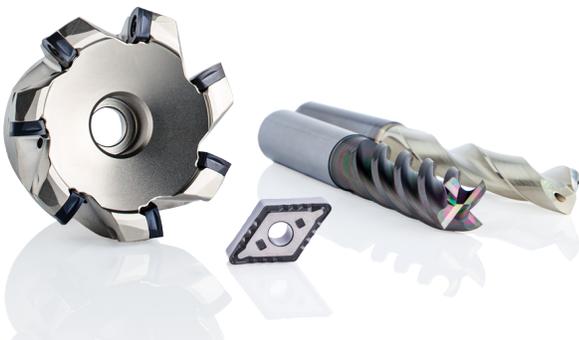

Allen Benjamin is a leading provider of high performance carbide and premium high speed steel taps. Made with high tensile strength carbide, these taps are highly efficient when tapping abrasive materials such as space age alloys, exotic materials and aluminum. HSSE (premium high speed steel) taps deliver dependable performance and uncompromising quality to machinists who often tap challenging materials. Color coding simplifies the selection process to match the tap to the right job.

Power. Precision. Performance.

IMCO Carbide Tool Inc. is a manufacturer of precision cutting tools, providing manufacturers in a variety of industries with quality products. By revolutionizing the way their tools are designed, produced, tested and used, IMCO strives to meet the ever-changing needs of a technologically diverse customer base.

TOTAL TOOLING = QUALITÄT x SERVICE²

WNT is an international supplier of state-of-the-art cutting tools, offering 50,000 high quality products, including turning, drilling, milling, grooving, finish-boring, and clamping. WNT offers a broad range of innovative, state-of-the-art products, with an availability of 99%.

More on what's new in v2.4:

- Cutting Tool Brands now available include: Allen Benjamin, Command, Destiny, IMCO, ISCAR, Kennametal, Mitsubishi Materials, PHorn, Raptor, WIDIA and WNT
- Over 250,000 products and 293,300 CAD models available
- My Account features a new Contact List making it easier and faster to send and share your work
- Report 3D issues in 1 click directly from the 3D viewer
- The Machine and Spindle information is now displayed in the reports
- Enter the Feeds and Speeds information even when the manufacturer's recommendation is not available to output in the reports and exports
- Many more improvements in v2.4 - [for a complete list, click here](#)

IMTS and AMB 2016

We saw great enthusiasm at IMTS and AMB this year. Thanks to all of our amazing partners for helping with our contest where two lucky winners are now proud owners of the Oculus Rift and Oculus-ready PC. Congratulations to Isaac Rupprecht of K&G Manufacturing Co, and to Christian Kraft of Steiner Maschinenbau GmbH!

Thanks to everyone who entered! Look for more opportunities to participate in our contests in the coming months. Join us on social media to learn details.

A note of gratitude...

If you do not see your preferred cutting tool brand in our library, we encourage you to contact your tool supplier and request they publish their data on MachiningCloud.

MachiningCloud is dedicated to leading a digital shift within the discrete manufacturing industry to deliver a new level of operational efficiency. Cloud-based applications, resources, services, and knowledge & digital product data from the world's leading manufacturers of cutting tools, machine tools, workholding and specialty products are providing efficiency improvements by facilitating the flow of data to and from today's data intensive shop floor, software, and equipment.

Thanks to our supporters who share our vision.
